Jennifer Ingram - Organisational Development Manager

IT TECHNICAL

Technical Engineers are relied upon to manage and maintain infrastructures and applications, working as part of a team to deliver excellent customer service. As a Technical Engineer, you may find yourself providing technical support to a range of industry-leading organisations across both the public and private sectors, ensuring their IT equipment complies with industry standards.

IT ENGINEERING

As an IT Engineer, there will be exciting opportunities to work as part of a team with a diverse range of customers. You will be allocated your own company vehicle, visiting customer sites to provide maintenance and support for their IT hardware and/or software. Throughout your apprenticeship, you will be trained in various vendor technologies, receiving industry-acknowledged accreditations.

IT REPAIR & SUPPLY CHAIN

Working as part of a larger team from SCC's Midlands-based National Distribution Centre, you will adapt to new technologies to provide a professional repair service to a range of technical products. Other roles involve accurately managing inventories and distributing stock to ISO regulated standards.

BUSINESS ADMINISTRATION

Business Apprentices will gain skills and qualifications in the commercial world as part of SCC's large and thriving administration teams across the UK. Opportunities are available in a range of business areas, including Corporate Services and HR.

IT SUPPORT

As an IT Support Apprentice, you will be given the chance to work with high street names, providing technical guidance as part of SCC's award-winning customer support team. Working from SCC's modern Midlands-based Customer Service Centre, you will learn to diagnose and resolve technical problems, to deliver an excellent customer experience.
